Elo M50
Mobile Computer

One Device Does It All.

The Elo M50 is an enterprise-grade mobile computer purpose-built to increase efficiency by putting everything your workers need into the palm of their hands.

Key Features

- 5.5-inch HD Touch Display
- Android 10 with GMS
- Qualcomm 660 octa-core
- 2D Barcode Scanner & NFC

Rugged Design

Purpose built to endure commercial use.

- Corning Gorilla Glass
- IP65
- MIL810-G
- User swappable battery

Battery Life to Cover Your Shift

With a 12-hour battery life to cover your shift, you don't have to worry about having backups to support constant rotation. And with the quick charge feature, your device can be fully powered in just about an hour.

*battery life dependent on use

Connect Without Barriers

Whether you are in store, outside your facility or moving between wings of a hospital, stay connected.

Wi-Fi   Bluetooth   4G LTE

Enterprise-Grade Support

- **EloCare℠ OS 360:** Elo will provide security updates through Android 11 (with pending support for Android 12).
- **Seamless Provisioning:** Leverage EloView®, Google Zero Touch or simply scan a QR code to integrate with your choice of MDM provider.
- **Elo OEMConfig:** Get immediate support of Elo's proprietary API's on your favorite MDM platforms, saving you months of time as new feature releases become available.

Elo Advantage

- **EloView:** EloView allows users to deploy and securely manage their entire network of Android-powered Elo devices from anywhere around the world.
- **Unified Architecture:** Elo's common architecture spans across sizes and form factors for seamless device management and application development.
- **Experienced in Commercial Android:** Since 2014, Elo has been perfecting Android-based technology to ensure it is commercially secured while maintaining the intuitive nature of Android.
- **Elo Home:** Leverage Elo Home to create a customized interface on the M50 devices to control which apps are available to users based on position or department.
